3. Dr. Vijayakar's address during Hahnemann day celebration
4. Organon
 - Importance of causation
5. Materia Medica
 - Veratrum album
 - Hot and thirsty remedies
6. Repertory
 - Bashful
7. Learning Disorders
8. Hope for the Hopeless
9. Clinical section
 - a. Case of Moya Moya Syndrome
 - b. Case of Seizures
 - c. Case of Autism
 - d. Case of Seizures with learning difficulty
10. Predictive Future events
11. Bibliography

Dr. Vijayakar's address on Hahneman's day

Dr. Hahnemann is the father of Homoeopathic medicine. Every year his birthday is celebrated on the 10th of April around the world.

The world knows him as a medical doctor, a chemist, a linguist, a scientist and a philosopher who changed the history of Medicine by discovering altogether a new alternative medical science, Homoeopathy.

On Hahnemann day celebration, this year of 2012, at Indian Institute of Homoeopathic Medicine (IIHP) Mumbai, Dr. Prafull Vijayakar gave a different insight about '**Homoeopathy as a religion**'. He spoke about how and why, we, the followers of Dr. Hahnemann should treat Dr. Hahnemann as our **GOD** and follow '**Homoeopathy as a religion**'.

Here, we are giving the excerpts of the audio recording of Dr. Vijayakar's talk.

To hear the audio, Internet has to be connected. Click on the following links.

Part I

Organon

In the previous issue, we covered paediatric case taking in detail. As explained in that, in every case we need to find out three things.

- 1) When the disease started
- 2) What were the circumstances which took place just before the onset of disease
- 3) How did the child/ person react to those circumstances?

Even in special syphilitic cases like Mental Retardation, Cerebral Palsy, Autism etc it is extremely important to know the mother's state during pregnancy.

These are the factors which give us the reason or the cause of the disease or what we call as ailments from of the case. Why it is so important? How does it help us in treating the case? Is it necessary to take it in every case? What did Hahnemann say about it? There are so many questions which come to one's mind. In this issue we shall try and answer these questions. The topic for this issue in the Organon section is "**Importance of the Causation -A/F**"

Importance of the Causation -A/F

'Past is the cause of the present and present will be the cause of the future', well said by Abraham Lincon.

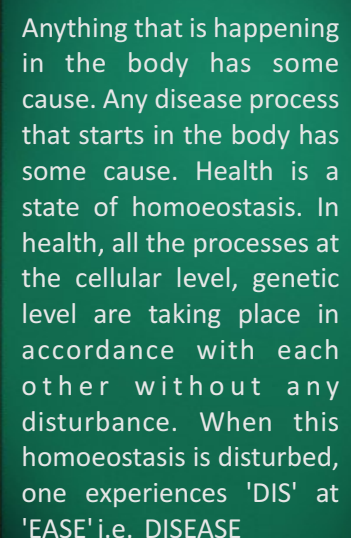

This holds true in every walk of life. Cause -effect is the central concept of Buddhism. It refers to the philosophical concept of causality, in which an action or event will produce a certain response to the action in the form of another event. Newton's third law too states that for every action there is a reaction that is equal and opposite.

Anything that is happening in this world has a precursor and a follower. That means for any event to happen there is some cause that starts the event and there is an effect that follows it as its reaction.

Similarly, in an organism or a human body there is always a chain of events taking place.

Dr. Vijayakar has very well equated and explained all the events or the processes (disease-cure) on the basis of Stephen Hawkings String theory in his book-Theory of suppression.

Anything that is happening in the body has some cause. Any disease process that starts in the body has some cause. Health is a state of homoeostasis. In health, all the processes at the cellular level, genetic level are taking place in accordance with each other without any disturbance. When this homoeostasis is disturbed, one experiences 'DIS' at 'EASE' i.e. DISEASE. To disturb the Homoeostasis or the kinetic equilibrium of the body there has to be some cause. What can disturb the homoeostasis? Darwin proved that this is a 'Survival of the fittest'. Every living being is surrounded by the hostile forces and the environment that is attacking it every moment. To survive in this world every living being from unicellular amoeba to multicellular human being have to defend constantly against these hostile forces. These hostile factors try to attack a living being in order that they themselves survive. The attacked organism uses all means at his disposal to combat these hostile forces. The symptoms produced due

In health, all the processes at the cellular level, genetic level are taking place in accordance with each other without any disturbance. When this homoeostasis is disturbed, one experiences 'DIS' at 'EASE' i.e. DISEASE

Materia Medica

In the present materia medica section, we will discuss the trimiasmatic aspects of an interesting remedy Veratrum Album.

In Materia Medica Pura Dr Hahnemann mentions, Physicians have no notion of the power possessed by this drug to promote a cure of almost one third of the insane in lunatic asylums (at all events as a homoeopathic intermediate remedy), because they know not the peculiar kind of insanity in which to employ it, nor the dose in which it should be administered in order to be efficacious and yet not injurious.

Veratrum Album

Veratrum Album

This white-flowered Veratrum is also known as White Hellebore. Tinctures of the rootstocks are collected (in the Alps and Pyrenees) early in June before flowering.

Veratrum Album belongs to the family Melanthaceae. The following remedies are obtained from this family- 1. Veratrum Album 2. Veratrum Viridie 3. Sabadilla 4. Colchicum
